Subject Index, 1990

A

AAAP
  C. A. Bottorff award 797
  P. P. Levine award 798
  Reed Rumsey Student Awards 800
  Upjohn Achievement Award, 1990 799
adenovirus *see* avian adenovirus
Aeromonas hydrophila as cause of hemorrhagic septicemia in a ground-hornbill 495
aflatoxin *vs.* chukar partridge 717
agar-gel precipitin assay
  compared with dot-blot hybridization assay for detecting infectious bursal disease virus 744
  compared with two other tests for differentiating infectious bursal disease virus antibodies 1002
agglutination test compared with hemagglutination-inhibition test for serotyping *Haemophilus paragallinarum* 643
antibody response in chickens, effect of genetics and environment on 843
antigen detection assays compared with dot-blot hybridization assay for detecting infectious bursal disease virus 744
ascites, hypobaric chamber used in detection of 754
authors' guidelines 237, 506, 794, 1031
avian adenovirus
  propagation in leukocytes 12
  ELISA to detect and quantify in chickens 239
  characterization of, associated with inclusion-body hepatitis 526

avian cholera *see* fowl cholera
avian influenza virus
  antibody response in chickens 80
  in broilers, oil-emulsion vaccine *vs.* 154
  in ducks 398
  persistence in distilled water at two temperatures 406
  persistence in distilled water, effects of pH, temperature, and salinity on 412
avian leukosis virus
  inducing chronic myocarditis and circulatory syndrome in chickens 174
  restriction mapping 99
  vs. chickens 174
avian nephritis virus
  vs. chickens, pathogenicity 295
  vs. chicks, virology, pathology, and serology 558
avian reovirus
  characterization of strain-specific polymorphisms 304
  pathogenicity in chickens 295, 304
awards *see also* AAAP
  Office International des Epizooties 802

B

bacteria *see* individual species
bacterium, gram-positive, characterized in budgerigar 779
beta carotene, effect on disease protection and humoral immunity in chickens 848
biliary cryptosporidiosis in broilers 454
biliary cyst in Congo African grey parrot 497
biotinylated probe for detecting fowlpox virus 374
biotyping used in epidemiologic study of infectious coryza 267
bobwhite quail *see* quail, bobwhite
Bottorff, C. A., award 797
budgerigar, characterization of gram-positive bacterium from 779

C

Campylobacter jejuni
  antibody treatment *vs.* colonization dose 595
  host lineage *vs.* cecal colonization 602
  immunoglobulin response *vs.* 588
carcinoma, squamous-cell, *vs.* rooster 775
cDNA probes *vs.* infectious bursal disease virus 129, 329, 744
cedar waxwings, ethanol toxicosis in 488
chemotaxis induced by *Pasteurella multocida* for heterophils 127
chicken anemia agent
  electron microscopic study 736
  ELISA to detect serum antibody *vs.* 359
  identification of 146
  monoclonal antibodies *vs.* 352
  reproduction of 146
  survey for antibodies in broiler breeders 704
  U.S. serological survey 146
chicken infectious anemia *see* chicken anemia agent
Chlamydia psittaci
  vs. red-tailed hawks 657
  vs. turkeys, antibodies characterized 878
chlamydiosis
  in Goffin's cockatoos, oxytetracycline *vs.* 228
  vs. red-tailed hawks 657
  vs. turkeys, antibodies characterized 878
chlorine dioxide foam, use in sanitizing chicken eggs 1
cholera *see* fowl cholera
circulatory syndrome in chickens induced by avian leukosis virus 174
clazuril *vs. Eimeria* in racing pigeons 73
coccidiosis
  Eimeria adenoeides and *E. tenella* inoculation *vs.* 196
  Eimeria necatrix-caused outbreak 485
  history of 509
  in broilers, diclazuril *vs.* 905
  in turkeys, maduramicin ammonium *vs.* 634
cockatoos, oxytetracycline *vs.* chlamydiosis in 228
colisepticemia *see Escherichia coli*
Congo African grey parrot, biliary cyst in 497
coniine toxicity in chickens, quails, and turkeys 433
coryza
  epidemiologic study in Australia 267
  vs. California chickens 1009
cryptosporidiosis
  biliary, in broilers 454
  in Spanish chickens 224
  vs. chickens, 1974–88 Georgia study 701
  vs. cockatiels 791
Cryptosporidium sp.
  vs. Australian diamond firetail finch 1027
  vs. Georgia chickens, 1974–88 701
Cryptosporidium baileyi
  experimental inoculation of broilers 454, 458
  oocysts in cockatiels with cryptosporidiosis 791
cutaneous hypersensitivity reactions in chickens, phytohemagglutinin-induced 369

D

dermal necrosis, *Pasteurella multocida* as cause of 491
diclazuril
  vs. coccidiosis in broilers 905
  vs. Eimeria, six isolates tested 911
dot-blot hybridization assay compared with antigen assays for detecting infectious bursal disease virus 744
dot-ELISA *see* ELISA
dot-immunobinding assay
  avidin-biotin enhanced 36, 321
  compared with ELISA for detecting *Pasteurella multocida* 539
  for detecting *Mycoplasma* in chickens 36
  for detecting *Mycoplasma* in turkeys 321

E

ectopic wing in wild black vulture 765
eggs, chicken
  penetration of eggshells by *Salmonella typhimurium* 463
  sanitation with chlorine dioxide foam 1
Eimeria see also individual species
  diclazuril *vs.* 911
  immunity study with chickens and turkeys 196
  history of coccidiosis control 509
  maduramicin ammonium *vs.* coccidiosis in turkeys 634
  toltrazuril and clazuril *vs.* in pigeons 73
Eimeria adenoeides inoculation *vs. E. tenella* challenge 196
Eimeria columbarum, toltrazuril and clazuril *vs.* in pigeons 73
Eimeria labbeana, toltrazuril and clazuril *vs.* in pigeons 73
Eimeria necatrix-caused coccidiosis outbreak 485
Eimeria tenella
  inoculation *vs. E. adenoeides* challenge 196
  vs. chickens, bacteremia and toxemia as cause of death 566
ELISA
  antigen *vs.* infectious bursal disease 209
  compared with dot immunobinding assay for detecting *Pasteurella multocida* 539
  compared with hemagglutination-inhibition test for detecting Newcastle disease virus 585
  compared with indirect hemagglutination test for detecting *Escherichia coli* 58
  compared with two other tests for differentiating infectious bursal disease virus antibodies 1002
  dot-, use of *Mycoplasma gallisepticum* and *M. synoviae* proteins as antigens in 575
  double-antibody, to detect hemorrhagic enteritis virus 425
  use in examining chicken antibody response to avian influenza virus 80
  vs. avian adenovirus in chickens 239
  vs. chicken anemia agent antibody 359
  vs. immunoglobulin response in *Campylobacter jejuni*-infected chickens 588
enrofloxacin medication in African grey parrots 1017
enteric disease in poults inoculated with small round turkey-origin enteric virus 683
enteritis *vs.* poults, association with small round virus 762
environment, effect on antibody response in chickens 843
Escherichia coli
  ELISA compared with indirect hemagglutination test for detecting 58
  differentiation of pathogenic and nonpathogenic isolates 941
  virulence factors of 45 strains 531
  vs. broilers, characteristics from "good" or "poor" producing flocks 855
  vs. chickens in combined challenge study 607
  vs. chickens, effect of beta carotene on immunity 848
ethanol toxicosis in cedar waxwings 488

F

finch, *Cryptosporidium* sp. infection in 1027
fowl cholera *see also Pasteurella multocida*
  vs. multiplier breeder turkeys 928
fowlpox virus
  detection by *in situ* hybridization 374
  effect of vaccination in 1-day-old chicks 677
  regulation of a foreign gene in 218
furazolidone toxicosis in ducks 693

G

genetics, effect on antibody response in chickens 843
Goffin's cockatoos, oxytetracycline *vs.* chlamydiosis in 228
grand eclectus parrot, myocardial sarcocystosis *vs.* 501
ground-hornbill, hemorrhagic septicemia in 495
guidelines for authors 237, 506, 794, 1031

H

Haemophilis paragallinarum
  agglutination test compared with hemagglutination-inhibition test for serotyping 643
  epidemiologic study of infectious coryza in Australia 267
  monoclonal antibodies compared 922
  monoclonal antibodies evaluated for serotyping 861
  monoclonal antibodies to identify serovars 52
  monoclonal antibodies to use in classifying isolates 364
  outer-membrane proteins of four isolates 871
  vs. chickens, two cases of infectious coryza in California 1009
  vs. chickens, pathogenicity and serovar-specific hemagglutinating antigens of 964
hawks, red-tailed, chlamydiosis *vs.* 657
hemagglutination-inhibition test
  compared with agglutination test for serotyping *Haemophilus paragallinarum* 643
  compared with ELISA for detecting Newcastle disease virus 585
hemorrhagic enteritis virus
  propagation in leukocytes 12
  efficacy of leukocyte-propagated virus as vaccine in turkeys 26
  ELISA for 425
hemorrhagic septicemia caused by *Aeromonas hydrophila* in a ground-hornbill 495
hepatitis *vs.* toucan 787
hepatitis, inclusion body *see* inclusion body hepatitis
herpesvirus *vs.* toucan 787

heterophil adherence evaluated in chickens 639
hypobaric chamber used to investigate ascites in chickens 754

I

immunofluorescence assay compared with dot-blot hybridization assay for detecting infectious bursal disease virus 744
inclusion body hepatitis with avian adenovirus *vs.* bobwhite quails 526
indirect hemagglutination test compared with ELISA for detecting *Escherichia coli* 58
indirect immunofluorescent assay to detect infectious bronchitis virus 246
infectious bronchitis virus
  Arkansas DPI compared with two other strains 253
  Australian T compared with two other strains 253
  detection by indirect immunofluorescent assay 246
  genomic RNA of three strains compared 253
  in broilers, oil-emulsion vaccines *vs.* 154
  Mass 41 compared with two other strains 253
  Mass 41 compared with cloacal isolates, tissue tropism of 865
  monoclonal antibody-based immunoperoxidase procedure for rapid detection of 893
  nephropathogenic strain, pathogenesis of 916
  vs. chickens, characterization of three enteric isolates 899
  vs. chicks, pathogenesis 809
infectious bursal disease
  virus variant from pullets 141
  pathogenicity and immunosuppressive properties of "intermediate" vaccine strains 203
  preparation of ELISA antigen *vs.* 209
infectious bursal disease virus
  cDNA probes for detection of 129, 329, 744
  differentiation of antibodies, three tests evaluated 1002
  dot-blot hybridization assay compared with antigen detection assays for detecting 744
  live vaccines *vs.* 7
  used in study to eliminate non-specific cross-reactions in mycoplasma serum plate agglutination tests 663
  variant from pullets 141
  vs. chickens in single and combined infections with reovirus 63
infectious coryza *see* coryza
infectious laryngotracheitis virus
  differentiation of vaccine and field strains by restriction endonuclease fragment patterns 646
  modified-live vaccines and field isolates *vs.* 106
  virus-neutralization test for 185

L

lactose, dietary
  and inoculation of anaerobic cultures *vs.* *Salmonella typhimurium* colonization 668, 749
  vs. cecal pH, volatile fatty acids and *Salmonella typhimurium* colonization 617
lavage to characterize respiratory tract cells in chickens 87
Levine, P. P., award 798
leukosis virus *see* avian leukosis virus

M

maduramicin ammonium *vs.* coccidiosis in turkeys 634
Marek's disease virus
  biological diversity of 14 isolates 944
  cross-reactive antigens with pseudorabies virus 479
  isolation in birds of genus *Gallus* in Japan 336
  transfection into chicken embryo fibroblasts 345
  vs. chickens, effect of major histocompatibility complex haplotypes on resistance 818
Moluccan cockatoo, myocardial sarcocystosis *vs.* 501
monensin, dietary studies in quail 571
monoclonal antibodies
  use in classifying *Haemophilus paragallinarum* isolates 364
  use in identifying cross-reactions between Marek's disease virus and pseudorabies virus 479
  vs. chicken anemia agent 352
  vs. *Haemophilis paragallinarum*
    two new monoclonal antibodies characterized 922
    use in serotyping 52, 861
  vs. *Pasteurella multocida* 163
  vs. infectious bronchitis virus, use in indirect immunofluorescent assay 246
monoclonal antibody-based immunoperoxidase procedure for rapid detection of infectious bronchitis virus 893
mononuclear phagocytic system in turkeys 393
mycobacterium *vs.* parakeet 1023
Mycoplasma, dot-immunobinding assay for detection of 321
Mycoplasma see individual species
Mycoplasma gallisepticum
  dot-immunobinding assay for detection of 321
  assay for detecting in chickens 36
  elimination of non-specific cross reactions with *M. synoviae* in serum plate agglutination test 663
  expression of cloned antigens in *Escherichia coli* 466
  fingerprinting strains from vaccinated layers 984
  glycoconjugate heterogeneity among five strains 969
  purified proteins used as antigen in dot-ELISA 575
  vs. chickens in combined challenge study 607
Mycoplasma iowae, dot-immunobinding assay for detection of 321
Mycoplasma meleagridis, dot-immunobinding assay for detection of 321
Mycoplasma synoviae
  assay for detecting in chickens 36
  dot-immunobinding assay for detection of 321

elimination of non-specific cross reactions with *M. gallisepticum* in serum plate agglutination test 663
purified proteins used an antigen in dot-ELISA 575
recombinant DNA probes for 709
restriction endonuclease analysis of various strains 611
mycotoxins *vs.* chukar partridge 717
myocardial sarcocystosis *vs.* grand eclectus parrot and Moluccan cockatoo 501
myocarditis in chickens induced by avian leukosis virus 174

N

nephritis virus *see* avian nephritis virus
Newcastle disease virus
cytopathic effect of lentogenic strains in chicken muscle cells 729
effect of breeder vaccination on immunization of progeny 114
hemagglutination-inhibition test compared with ELISA for detecting 585
oil-emulsion vaccines *vs.* 154
vaccines *vs.*, efficacy of water-in-oil oil-emulsion vaccines formulated from squalane and squalene 979
vs. chickens in combined challenge study 607
vs. chickens, pathogenesis 803

O

ochratoxin *vs.* chukar partridge 717
oxytetracycline *vs.* chlamydiosis in Goffin's cockatoos 228

P

parakeet, mycobacterium *vs.* 1023
parrots
African grey
congenital extra-hepatic biliary cyst in 497
enrofloxacin medication in 1017
grand eclectus, myocardial sarcocystosis in 501
partridge, chukar, mycotoxins *vs.* 717
parvovirus-like virus (chicken anemia agent) antibodies surveyed in broiler breeders 704
Pasteurella haemolytica as a co-pathogen in pullets and laying hens 1005
Pasteurella multocida see also fowl cholera
ability to generate chemotactic factors for heterophils 137
characterization of 10 low-virulence mutants 958
dot immunobinding assay compared with ELISA for detecting 539
genotypic characterization of field isolates and live vaccine strain 419
monoclonal antibodies against surface antigens of strain P-1059 163
serum resistance as indicator of virulence 888
somatic serotyping of isolates from avian hosts (1976–1988) 193
pathogenicity of two vaccine strains and a field isolate compared in turkeys 260
vaccine injection sites evaluated 214
virulence and toxigenicity of five capular serogroup D strains 384
virulence, serum resistance as indicator of 888
vs. turkeys, colonization study 381
vs. turkeys, cause of dermal necrosis 491
vs. turkeys and wildlife, homogeneity characterized 315
perirenal hemorrhage syndrome in turkeys
effect of management factors 833
incidence in six flocks 824
phytohemagglutinin-induced cutaneous hypersensitivity reactions in chickens 369
pigeons, toltrazuril and clazuril vs. *Eimeria* in 73
pseudorabies virus, cross-reactive antigens with Marek's disease virus 479
psittacines, oxytetracycline *vs.* chlamydiosis in 228

Q

quail, dietary study with monensin 571
quail, bobwhite
avian adenovirus associated with inclusion body hepatitis *vs.* 526
quail bronchitis *vs.* 44, 526
quail bronchitis *vs.* bobwhite quail 44, 526

R

radiolabeled gold colloid to assess blood-borne particle clearance in turkeys 393
raptors, chlamydiosis *vs.* 657
recombinant DNA probes for *Mycoplasma synoviae* 709
reovirus *see also* avian reovirus
vs. chickens in single and combined infections with infectious bursal disease virus 63
respiratory disease complex *vs.* chickens 607
respiratory tract lavage to characterize cells in chickens 87
restriction endonuclease analysis
of *Mycoplasma synoviae* strains 611
use in epidemiologic study of infectious coryza 267
restriction mapping of avian leukosis virus 99
Rous sarcoma virus molecular polymorphism analyzed in chickens 934
Rumsey, Reed, awards 800

S

Salmonella see also individual species
vs. broilers, characteristics from "good" or "poor" producing flocks 855
Salmonella enteritidis
experimental contamination in chicken eggs 438

isolation from internal organs 991
serological detection 721
signs compared 548
Salmonella typhimurium
dietary lactose *vs.* colonization 617
dietary lactose and anaerobic organisms *vs.* colonization 749
dietary lactose and anaerobic cultures in control 626
effect of dietary lactose and inoculation of anaerobic cultures on colonization 668
outbreak in Mexican broilers 221
penetration of eggshells 463
reduction induced by milk or whey 389
sodium dodecyl sulfate–polyacrylamide gel electrophoresis used in purifying proteins for dot-ELISA 575
sound, effect on stress response *vs.* chickens 759
squamous-cell carcinoma *vs.* rooster 775
stress response *vs.* chickens, effect of sound on 759
stunting syndrome in turkeys
experimental model 447
observation of long-segmented filamentous organisms 994
sudden death syndrome in turkey hens 770

T

T-2 toxin *vs.* chukar partridge 717
testicular degeneration with furazolidone toxicosis in ducks 693
toltrazuril *vs.* *Eimeria* in racing pigeons 73
toucan, herpesvirus *vs.* 787
transfection of Marek's disease virus into chicken embryo fibroblasts 345
turkey-origin enteric virus in poults 683

U

Upjohn Achievement Award 799

V

vaccines
effect of breeder vaccination with Newcastle disease virus on immunization of progeny 114
live, *vs.* infectious bursal disease virus 7
modified-live *vs.* infectious laryngotracheitis 106
oil-emulsion, *vs.* avian influenza virus in broilers 154
oil-emulsion, *vs.* infectious bronchitis virus in broilers 154
oil-emulsion, *vs.* Newcastle disease virus in broilers 154
problems associated with intramuscular breast injection in chickens 473
vs. fowlpox virus in 1-day-old chicks 677
vs. hemorrhagic enteritis in turkeys 26
vs. infectious bursal disease, pathogenicity and immunosuppressive properties of "intermediate" strains 203
vs. Newcastle disease virus, efficacy of water-in-oil oil-emulsion vaccines formulated from squalane and squalene 979
vs. *Pasteurella multocida*, injection sites evaluated 214
vaccinia virus promoter evaluated for regulation of a foreign gene in fowlpox virus 218
virus, small round, associated with enteritis in poults 762
virus-neutralization test
compared with two other tests for differentiating infectious bursal disease virus antibodies 1002
for infectious laryngotracheitis virus 185
vulture with ectopic wing 765

W

waterfowl influenza virus
replication in chickens 277
renal pathology in chickens 285
virulence in chickens 120
wing, ectopic, in wild black vulture 765
